1959 List

WAPAKONETA, OHIO

Ohio Inspection Cert. 1688

We are located on Mudsock Road, Auglaize County, and are east of the new Rt. 25 Lima By-Pass. Cridersville Road, east, is now named National Road and numbered Auglaize 68. We are about a mile south on Mudsock.

These are retail prices, prepaid, with spring delivery unless otherwise requested. All prices are subject to stock and prior orders.

Varieties priced at 2/25¢ are 10 for \$1.00	2/20¢ are 10/80¢
2/30¢ are 10 for \$1.20	3/25¢ are 10/70¢
25¢ are 10 for \$2.00, or 8 bulbs for price of 10	

5 bulbs may be purchased at the 10 rate. Write about larger lots.

Unfortunately we had a very large planting of bulblets last spring. With only a few exceptions we have small bulbs and/or bulblets of varieties listed last year but omitted this. If you have last year's list and wish to write about any varieties we shall be glad to do our best.

Where bulblets are not priced 25¢ packets may be ordered. They will be filled as generously as bulblet production has been. Color number has also been omitted because a new schedule is in effect for next show season and complete list was not available to us. Have tried to name color.

E means early, roughly under 75 days, M. is midseason or 75-80 days and L is longer. Weather influences blooming so dates are approximate.

Owing to the "clip" the weather gave us, we are changing our policy and taking a flyer on introducing some of Mr. W. H. Rogers new offerings.

All are priced at 50¢ for any size bulb. 1 bulb and 10 Bts. for \$1.00. 5 bulbs and 50 bulblets one variety for \$4.00. Blooming size stock is fair.

MISS SARA (52-28): Yellow Bird x Unknown. Field height 42 in. 5 three inch florets open, 5 in color. 15-16 buds, 17 inch flowerhead. Wavy petaled, medium to deep orange with bright yellow throat and bright red feathery blotches. Blooms in 80 days. Registered color 227.

RUTH LINDA (52-34): Yellow Bird x Unknown. Field height 41 inches. Clean bright deep yellow with decided greenish cast. Small red mark on throat petals. 3 3/8 inch florets on a 16-17 bud spike with 6-7 open and 6 in color. Flowerhead 20 inches. Blooms in 75 days. Color 216.

SPIFFY (O-Z) Originated by R. E. Schwarting and registered by W. H. Rogers. Atom x Unknown. Color 225. Field height 40 inches. Light orange with much deeper orange blotch. All petals edged cream. 3 1/4 inch florets on a 15 bud spike with 5 open and 5 in color. Blooms in 78 days. Mr. Rogers says he has never seen any glad colored quite like this.

Mixed miniatures are available, blended from named varieties
per 100 Large \$4.50 Medium \$3.00 and Small \$2.00

Some second choices will be appreciated and, where possible, extras chosen from them.
